

5 Days Training in Small Animal Laparoscopic Surgery

Date and Location: 8th - 12th November 2020, Cluj, Romania

Course Organization: Univ. Prof. Dr. Gilles Dupré with the European School for Advanced Veterinary Studies

Course faculty (subject to change): Dr. Gilles Dupré Dipl ECVS, Dr. Nikola Katic Dipl ECVS, Dr. Attilio Rocchi Dipl ECVAA, Dr. Bart Van Goethem Dipl ECVS,

Dear Colleagues!

The ESAVS Laparoscopy course is dedicated to experienced surgeons, diplomates, residents and faculty members wishing to start with laparoscopic surgery. A strong focus will be made on practical exercises with dry- and wet-labs (see the attached program).

At the end of the course, participants 1) Shall have a profound knowledge on the pros and cons of mini-invasive surgery and the most common indications 2) Shall be able to plan and organize a mini-invasive setting in their clinic 3) shall be able to perform at least most common elective surgeries.

Sunday, 8 November 2020
