

Basic Equine Arthroscopy Course

22th and 23rd September 2021 – Hannover (Germany)

After months of online meetings and webinars, we are happy to invite you to this hands-on basic equine arthroscopy course. The course includes in-depth presentations on applied anatomy and arthroscopic techniques, as well as talks on the latest developments and the management of complications (see preliminary schedule on the next page). Four wet-lab sessions will provide substantial time to put this into practice in small groups under the guidance of experienced instructors. Moreover, one station equipped with the Arthrex Nanoscope will be available during these sessions to gain experience with needle arthroscopy.

Instructors:

- **Prof. Dr. Florian Geburek**, Dipl. ECVS (TiHo Hannover, Ger)
- **Dr. Bruce Bladon**, Dipl. ECVS (Donnington Grove Veterinary Group, Newbury, UK)
- **Andrea Noguera Cender**, Dipl. ECVS (FU Berlin, Ger)
- **Prof. Dr. Christoph Lischer**, Dipl. ECVS (FU Berlin, Ger)

Following this course, a tenoscopy & bursoscopy course will take place at the same facility, that can be booked separately or in combination with the basic arthroscopy course.

Practical information

- Date: 22 - 23 September 2021
- Location: Clinic for Horses, University of Veterinary Medicine Hannover
- Costs:
 - € 1600,- including dinner on the first day, lunch and coffee breaks
 - € 1350,- concessionary (residents and interns)
 - If this course is booked in combination with the tenoscopy/bursoscopy course, the total price for both courses will be € 2600,-
 - € 2100,- concessionary
- Maximum number of delegates: 15 (max. 3 per arthroscopy station)
- *All possible measures will be taken to abide by Covid-19 related regulations and to ensure the safety of all delegates. In case of Covid-19 related course cancellation, a full refund will be supplied.*

Basic Equine Arthroscopy Course
