Advanced Veterinary Studies

## Soft Tissue Surgery Course – Head and Neck

**Date and Location:** 3<sup>rd</sup> - 7<sup>th</sup> December 2021, Warsaw / Poland  
**Course Organization:** European School for Advanced Veterinary Studies

**Important note: For this STS IV Head and Neck course, participants will have the opportunity to work in groups of 2 per surgical table ensuring an individual and intensive learning experience.**

This veterinary course is dedicated exclusively to head and neck surgery. A strong focus will be put on upper airways and ear surgeries. However, topics as salivary mucoceles, thyroid and parathyroid diseases and surgeries will also be covered.

### Learning Outcomes:

At the end of the course, participants 1) shall have acquired a profound knowledge of upper airways anatomy and its relevance for treatment of diseases like Brachycephalic syndrome, laryngeal paralysis and tracheal collapse; 2) shall master a clear decision-making process for ear surgeries; 3) shall be able to perform external ear surgeries and to operate or refer middle-ear ones; 4) have become confident in treating salivary mucoceles and surgical diseases of thyroid and parathyroid.

### Course Masters

Dr. Gilles Dupré, Dipl. ECVS  
Dr. Gert ter Haar, Dipl. ECVS
