Consent to electronic data processing

The organizer of this exam uses services (examination software and / or hardware) of IQUL GmbH for this exam. During the exam, personal data will be collected, processed, and saved according to §28 EU General Data Protection Regulation (GDPR). Both the organizer and IQUL are diligently following all technical and organizational measures for the secure and exclusively earmarked processing of your data.

To participate in this exam, please accept electronic data processing.

I consent to the electronic processing of my data for the sole purpose of carrying out and evaluating my exam.

OK

Tick this box. *)

Click 'OK'

*) This is just to show you the actual set-up of the exam platform; no data will be stored and everything will be deleted after you have clicked through the mock exam.

Accessing an exam

The screenshot shows a web browser window with the URL `ecvs.q-examiner.com/client/exams`. The page header displays the candidate ID `Demo5471967`. A central menu titled "Available exams" lists five options: "Mock Exam – All Question Types *)", "ECVS LA Case-based Mock Exam", "ECVS LA Practical Mock Exam", "ECVS SA Practical Mock Exam", and "ECVS SA Case-based Mock Exam". A hand cursor icon is positioned over the last option. A blue callout box below the menu contains the instruction: "Click on the exam you would like to take." A footnote at the bottom explains that the "Mock Exam – All question Types" is a generic example.

Available exams

- Mock Exam – All Question Types *)
- ECVS LA Case-based Mock Exam
- ECVS LA Practical Mock Exam
- ECVS SA Practical Mock Exam
- ECVS SA Case-based Mock Exam

Click on the exam you would like to take.

*) The 'Mock Exam – All question Types' is a generic exam example with general knowledge questions purely for the purpose of demonstrating the technical implementation of various question types.

You will not find any ECVS content in these questions, nor will all of these question types necessarily be used in the ECVS exam.
