

esaote^{VET}

2nd Edition of MRI & Ultrasound in Veterinary Medicine

10-12 May 2024 @Chia, Sardinia (ITALY)

Find out more on
www.esaotevetmeeting.org

Speakers

Massimo Baroni
DVM, Dipl. ECVN

Claudio Bussadori
MD, DVM, Dipl. ECVIM-CA (Cardiology)

Valeria Busoni
DVM, PhD, Dipl. ECVDI

Cristian Falzone
DVM, MRCVS, Dipl. ECVN

Mike Hertage
MA, DVSc, DVR, DVD, DSAM,
FRCVS, DECVIM, DECVDI

Lorrie Gaschen
PhD, DVM, Dr.med.vet., Dr.habil., DECVDI

Nele Eley-Ondreka
DVM, Dipl. ECVDI

Augusta Pelosi
DVM, Dipl. ACVS &
ACVIM (Cardiology)

Grant Myhre
DVM, Hospital Director
at Myhre Equine Clinic

Federica Rossi
DVM, SRV, Dipl. ECVDI
(Add Rad Oncol)

Sigitas Siginauskas
DVM, Dipl. ECVN

Kurt Selberg
MS, DVM, DACVR

Martin Waselau
DVM, MS, DACVS, Dipl. ECVS, EBVS

Mary Beth Whitcomb
DVM, MBA, Dipl. ECVDI (LA-Associate)

Friday, May 10th

9.00	Welcome and Introduction
9.15	MRI: VetMR system over the last 24 years: clinical capability and improvement in image quality, M. Herrtage
10.00	MRI: MRI options in orthopedic disorders: when it makes the difference, N. Eley-Ondreka
10.45	Coffee Break
11.00	MRI: MRI in metabolic encephalopathies: a straightforward diagnosis?, C. Falzone
11.45	MRI: Disc disease beyond classification with Supreme vet-mr, M. Baroni
12.30	Lunch Break
13.45	US: Embryology and genetics of cardiac conditions, A. Pelosi
14.30	US: Congenital heart diseases in small animals: morphological features and management, C. Bussadori
15.15	Coffee Break
15.30	US: Vascular rings: characteristics and treatment, A. Pelosi
16.15	US: Management of the patient with congenital heart disease: case discussion, C. Bussadori
17.00	US: Pathophysiology and characteristics of chronic mitral valve disease, C. Bussadori
17.45	Adjourn
19.00	Welcome Reception

Saturday, May 11th

9.15	US: Diagnosing peritoneal diseases: pros and cons of ultrasound, F. Rossi
10.00	US: Diagnosing thromboembolism with Doppler ultrasound, L. Gaschen
10.45	Coffee Break
11.00	US: Update on small intestinal ultrasound with histopathology comparisons in dogs and cats, L. Gaschen
11.45	US: Imaging of the adrenals: ultrasound versus CT, F. Rossi
12.30	Lunch Break
13.45	MRI: Cerebral Microbleeds with Supreme Vet-MR, M. Baroni
14.30	MRI: MRI application in peripheral nerve diseases, N. Eley-Ondreka
15.15	Coffee Break
15.30	MRI panel, All Speakers
16.15	MRI panel, All Speakers
17.00	Adjourn
19.30	Social Event and Dinner

Sunday, May 12th

9.15	MRI: MRI imaging of patients with cerebellar disease, S. Signauskas
10.00	MRI: MRI and spinal tumors: a tricky diagnosis, C. Falzone
10.45	Coffee Break
11.00	MRI: Interactive Clinical Cases, All Speakers
11.45	MRI: Interactive Clinical Cases, All Speakers
12.30	Conclusion in plenary session

Friday, May 10th

9.00	Welcome and Introduction
9.15	US: How ultrasound can help explore the skull and head structures, V. Busoni
10.00	US: Ultrasound & Wounds – Debunking the Myths, M. B. Whitcomb
10.45	Coffee Break
11.00	US: Interventional Ultrasound & Minimally Invasive Procedures in horses, M. B. Whitcomb
11.45	US: If you can't avoid it, make it your ally: dealing with uncertainty in equine ultrasound, V. Busoni
12.30	Lunch Break
13.45	MRI: A review of standing MRI using G-scan Equine, G. Mhyre
14.30	MRI: MRI of the Digital Flexor Tendon Sheath – Are there any benefits?, M. Waselau
15.15	Coffee Break
15.30	MRI: Tarsal MRI – When? How to? Limitations?, M. Waselau
16.15	MRI: What are common and not so common MR findings in the tarsus/metatarsus, K. Selberg
17.00	MRI panel, All Speakers
17.45	Adjourn
19.00	Welcome Reception

Saturday, May 11th

9.15	MRI: Stifle MRI – How to? – Technical Requirements, Set Up and Expectations, M. Waselau
10.00	MRI: Stifle MRI – When? – Indications and Findings, M. Waselau
10.45	Coffee Break
11.00	MRI: Is it profitable to own a G-scan equine in private practice?, G. Mhyre
11.45	MRI: What is a minimum data base for an MR exam and how we can use limited screening sequences, K. Selberg
12.30	Lunch Break
13.45	MRI: MRI of the Equine Skull – How to and is it Worth..?, M. Waselau
14.30	MRI: Case based learning focus on foot-fetlock, K. Selberg
15.15	Coffee Break
15.30	US: Meniscal injuries in horses - Where Ultrasound fits into our Clinical Examination, M.B. Whitcomb
16.15	US: Foot ultrasound: what is worthwhile in equine field practice?, V. Busoni
17.00	Adjourn
19.30	Social Event and Dinner

Sunday, May 12th

9.15	US: Challenging clinical cases, F. Rossi
10.00	US: Ultrasound of the stomach and pancreas in dogs and cats with vomiting, L. Gaschen
10.45	Coffee Break
11.00	US: Canine cardiomyopathies: primary and secondary, A. Pelosi
11.45	US: Transesophageal echocardiographic exam , C. Bussadori
12.30	Conclusion in plenary session

Chia Laguna Hotel Village

Viale Belvedere
09010 Località Chia
Domus de Maria (CA), Italia

The Chia Laguna Resort is the ideal location to organize events, meetings, and incentive holidays, surrounded by the natural wonders of Sardinia: the perfect mix of work and leisure, with fascinating spaces and an enchanting atmosphere.

Accommodation is NOT included in the registration fee.

Delegates are free to choose the hotel they prefer.

Reservations: info@chialagunaresort.com

The south of Sardinia is a paradise of nature with the most beautiful beaches in Italy. History, culture, tradition and impressive beauties.

Welcome

Erminio Bassi
Esaote Head of Vet Business Organization

Esaote has always focused its efforts on satisfying Veterinary needs for education in the diagnostic imaging space.

A key part of this effort has come to life through several editions of advanced Veterinary medicine meetings held over the course of twenty years.

The Esaote MRI modality originally led the way along this path, however, it is clear that there are synergies between Ultrasound and MRI when addressing diagnostic approaches to ensure effective patient care.

Hence the introduction of the first, successful edition of MRI & Ultrasound in Veterinary Medicine that took place last in year in Cancun. Attendees mainly from Latin America, North America and Western Europe gave very positive feedback about the combined formula of MRI and Ultrasound. They appreciated the opportunity to interact with international colleagues and get a glimpse at the evolution of their profession.

For this reason, we decided to consolidate the format with the 2nd Edition of MRI & Ultrasound in Veterinary, this time back on Italian soil in the stunning and culturally unique island of Sardinia.

The program will as usual feature accredited speakers with international appeal and will have the scope of engaging participants, stimulating discussion as well as the exchange of clinical research and best practice in Veterinary imaging.
