WELCOME

PROGRAM

REGISTRATION

Dear guests,

we're happy to welcome you again at the IRCAD for the 3rd phase of our minimal invasive surgery course. We are especially happy to welcome Dr. Brad. J. Case, who kindly accepted to be part of the expert team, so we would like to thank him and wish him a very warm welcome to IRCAD!

We hope you'll get the most out of this high quality course and will enjoy your stay. We're looking forward to seeing you in Strasbourg!

Mélanie Fancon
Veterinary division Europe, Medtronic

Dear Colleagues,

In the past years, many advantages have been demonstrated through the reduction of the number of ports in mini-invasive surgery.

This is now also feasible in veterinary surgery

By attending this single port session you will discover and practice with the current single-port platforms: SILS, Operative laparoscope or Glove techniques.

Join us and improve again your laparoscopic skills!

Univ. Prof. Dr. Gilles Dupré

Thursday, June 20th 2019

17:00 – 19:45 Lectures:

- Rationale and History : From the operative laparoscope to NOTES
- Current techniques using single ports in Veterinary surgery
 - Single-port Ovariectomy with the Operative laparoscope
 - Single port Ove, OHE, Cryptorchidectomy using the SILS device
 - Combined Ove and Gastropexy with various devices
 - Advanced laparoscopic surgery
 - Thoracoscopic surgery

20:00 Group dinner

Friday, June 21st 2019

09:00 - 12:30 Wet lab

Participants will train with different types of single port devices, including operative laparoscope, SILS and glove technique without articulated instruments and articulated instruments will be available.

12:30 – 13:15 Lunch break

13:15 – 15:30 Wet-lab 2

15:30 End of training

To guarantee the best possible training quality, the course is limited to 24 participants.

Registrations will be taken in order of their arrivals and submitted to the pre-payment of the course fees.

To register, please send the completed registration form to **melanie.fancon@medtronic.com**.
