

Masterclass

Level 2

Advanced

November 20th-22nd, 2023

IRCAD / EITS

Hôpitaux Universitaires – Strasbourg, France

Dear guests,

We're happy to welcome you again at the IRCAD for the 2nd phase of our minimal invasive surgery course. Once more, Prof. Gilles Dupré and his team of experts accepted to help us propose a very high quality course, that will bring you a step further in your practice of this specific art of surgery.

We hope you'll enjoy your stay, and look forward to seeing you again in Strasbourg!

Mélanie Fancon
Veterinary division Europe,
Medtronic

Dear colleagues,

It is a pleasure to be able to welcome you again at the IRCAD center in Strasbourg.

Thanks to the support of Medtronic, we are now able to bring you at a more advanced stage of your mini-invasive surgery practice. We have organized for you a combination of theoretical lectures, dry and wet-labs that will help you improve your skills and address more advanced techniques into the abdomen and into the chest. The high-quality environment, the best instructors possible together with our long experience in surgical and mini-invasive teaching will bring you forward.

See you again in Strasbourg

Univ. Prof. Dr. Gilles Dupré
