

**University of Glasgow
College Of Medical Veterinary & Life Sciences
School Of Veterinary Medicine**

Professor/Senior Clinician/Clinician in Small Animal Surgery (Soft Tissue or Orthopaedics)

Vacancy Ref: 050328

Salary: Grade 9 Senior Clinician £53,348 - £85,000; Grade 8 Clinician £44,706 - £75,000.

Salary (Grade 10) will be within the Professorial range and subject to negotiation

Are you motivated by clinical *excellence* rather than clinical *targets*?

Are you looking for a fulfilling career where you can inspire the next generation of vets, while maintaining clinical distinction, and still have time for interesting research?

Following significant clinical salary restructuring, the Division of Small Animal Clinical Sciences is seeking to recruit dynamic, motivated surgeons to the following posts:

Professor

The successful candidate will provide academic, corporate and strategic leadership in the Small Animal Hospital (SAH) referral service by further developing the School's expertise in Soft Tissue Surgery. The role will involve leading high quality clinical research and research-led education in partnership with other divisions and institutes within the College; driving the strategic expansion of the SAH academic developments, and delivering a high quality service to referral small animal patients.

Senior Clinicians / Clinicians

The ideal candidate(s) will hold a Diploma or equivalent qualification (Senior Clinicians) but residency-trained colleagues due to sit exams and experienced advanced practitioners will also be considered (Clinicians). The post offers a significant element of 'off clinics' time for research and scholarship (including exam study). Postholders may divide their time between orthopaedics and soft tissue, or elect to focus on one specialty. The role will also involve the delivery of clinical teaching to undergraduates, interns and residents.

The successful candidates will join a friendly and supportive team in a multi-disciplinary, state-of-the-art hospital. The ability to work well with others in a collegial team atmosphere is essential.

You will be based at the Small Animal Hospital, located at the Garscube Estate, 10 minutes drive from the vibrant "West End" of Glasgow, and less than one hour from Loch Lomond. The referral hospital is serviced by approximately 40 nursing associated staff, 30 clinicians, 28 residents/interns and 11 management / administrative staff, supporting over 10 clinical specialities. In addition there is a busy first opinion out of hour's service supported by four clinicians and 14 nursing associated staff.

Informal enquiries can be made to Professor Sandra Corr (Sandra.corr@glasgow.ac.uk)
