

The **Pferdegesundheitszentrum Kronberg GmbH**, located in the picturesque Taunus region, is at the forefront of innovative veterinary care for horses. Over the years, our team has grown steadily, transitioning from a focus on mobile practice to offering specialized in-house services such as rehabilitation, equine dentistry, and orthopedics. Our cutting-edge OrthoHalle, the first of its kind in Germany, is nearing completion. This facility enables year-round, high-level diagnostic examinations, featuring a 20x40-meter riding arena, a 20x4-meter trot-up track, and circular areas with specialized, non-slip surfaces.

As a member of the **TeamVet network**, we collaborate closely with the Burg Müggenhausen Equine Clinic, providing access to state-of-the-art diagnostic tools such as CT, MRI, and scintigraphy.

To further develop our team, we are now looking for a

Veterinarian (m/f/d) Specializing in Equine Orthopedics and Surgery

Your tasks:

- Play a key role in developing our stationary orthopedics department within your area of expertise
- Depending on your experience take on independent responsibilities within our clinic operations and potentially in mobile practice. Leverage modern technologies to provide precise diagnostics
- Ensure professional communication with clients and accurate documentation of treatment processes
- Collaborate closely with our practice team, fostering trust and teamwork
- Support in-house training sessions and events and work in partnership with referring veterinarians

Your profile:

- A completed degree in veterinary medicine with licensure and a passion for horses
- Several years of professional experience in equine practice or clinics with specialized knowledge in equine orthopedics. Certification as a specialist veterinarian or Diplomate (ECVS, ACVS) or equivalent qualifications are advantageous
- The ability to work independently with a meticulous and responsible approach
- Enjoy working in a team and contributing to the growth of our equine health center

Our offer:

- A collegial, motivated, and open team with short decision-making processes
- A thriving and financially stable organization with a collaborative environment
- Fair compensation and a long-term employment opportunity
- Professional development tailored to your interests including individual internal and external training opportunities
- Active knowledge exchange among veterinarians within the TeamVet network
- Comprehensive social benefits including a 50% employer contribution to company pension plans, access to a national sports and health network and subsidized bike leasing
- Outstanding clinic infrastructure including a covered OrthoHalle for extensive examinations and diagnostics, a fully equipped operating room, mobile and stationary X-ray facilities, high-resolution ultrasound and advanced rehabilitation services (including an aqua trainer, Class 4 laser therapy, shockwave therapy, and radiofrequency therapy)

Are you convinced?

Then we look forward to receiving your detailed application, stating your availability, directly via our [application portal](#).

Do you have any questions?
